The Minecraft Education Global Build Championship is a global build challenge for students around the world to be inspired to build a better world through Minecraft: Education Edition. We want to promote creativity, collaboration, and problem solving while giving students a way to stay connected in a game-based learning environment they love and meet the remote learning needs of educators.

Learn More here: <https://imaginecup.microsoft.com/en-us/minecraft>

Let us collaborate to make your most fantastic world yet! Take on the Global challenge to potentially win some extraordinary prizes! Come in and work for as long as it takes from 9:00-4:00 \$50!
