The Foundations of the Girl Scout Leadership Experience

STEM

Let your girl see that STEM can help her make the world a better place! Girl Scouts who participate in girl-focused STEM programs:

- Become better problem-solvers, critical thinkers, and inspirational leaders
- Get better grades, earn scholarships, and follow more lucrative career paths
- See STEM as the foundation for a meaningful and successful future

Outdoor

When Girl Scouts get outside, they:

- Discover that they can better solve problems and overcome challenges
- Develop leadership skills, build social bonds, and are happier overall
- Become team players and care more about protecting our environment

When girls spend quality time outdoors and increase their exposure to nature, they thrive physically, emotionally, and intellectually.

The Foundations of the Girl Scout Leadership Experience

Life Skills

Girl Scout badges, beginning with Civic Engagement and expanding to Healthy Living, Communication Skills, Practical Skills, and Global Citizenship, form the foundation of activities that help girls grow as Girl Scouts.

Whether it's by exercising and staying healthy, developing strong relationships with family and peers, advocating on behalf of others, protecting our environment, or exploring careers that can truly change the world for the better, girls gain the skills and the inspiration to accept challenges, overcome obstacles, and take the lead.

Entrepreneurship

Through Girl Scouts, girls learn to think like entrepreneurs as they participate in activities that spark curiosity, confidence, and innovation.

Research shows that girls are actively interested in becoming entrepreneurs, developing financially stable futures, and using their skills to make a big impact on the world.

The Girl Scout Cookie Program, the foundation of entrepreneurial experience in Girl Scouts, is an important (and exciting!) part of the overall Girl Scout experience—tons of learning for her and beyond-delicious cookies for our awesome cookie customers! It's a win-win
